

2024 Thrive Community Grants Application Guidelines.

Connection and participation.

We believe every child and young person should have the best opportunities to connect with friends, family and the community, participate in activities that build resilience, develop new skills and enrich their lives, and feel they belong.

Connections provide us with happiness, security, support and a sense of purpose, are critical to our identity and important for our wellbeing. Connection is also a protective factor for mental health.

However, we know that poverty, discrimination and disadvantage can make it very difficult for children and young people to participate in community life.

About the grants.

Each year, Bank of Melbourne Foundation Thrive Community Grants offer up to \$50,000 to improve the social and emotional wellbeing of children and young people.

We invest in smaller, local charities that provide children and young people with opportunities to connect and participate in community life.

We prioritise funding to support children and young people facing the greatest barriers to reaching their potential.
